

# Advent calendar 2024

Code Nr.: 05 136609 001  
EAN: 4013288228277

Father Christmas would be delighted to have a lighter sack – the contents of the Wera Advent calendar 2024 are perfect for him. Hidden are many goodies and new products with different advantages.

8 bits in 25 mm length, 5 bits in 50 mm length, 3 sockets with 1/4" drive, one universal bitholding screwdriver and – surprise – a Zyklop Mini ratchet head for bits (also for sockets using an adapter). Note the particularly durable BiTorsion design of the bits.

This tool collection, in combination with the bitholding screwdriver with Kraffform handle, makes it possible to operate many different screws and bolts. With the Zyklop Mini, you'll even get a fine-toothed ratchet for a low return angle of only 6°, clockwise/anti-clockwise switching included. This allows you to

choose whether you want to work with a ratchet or a screwdriver.

The set comes with a case which is very reminiscent of the popular and practical Tool-Check... only a lot more space-saving.

Anyone who likes to season their meals – at home or on the go – will be happy about the salt and pepper set in the original Wera design – a must for all fans and only available in the Advent calendar. Of course, for the perfect lunch break you also need a bottle opener, this one in the compact Zyklop Mini design and therefore also a very nice Wera souvenir. These three new little life hacks sit in a case to make transport easier and to prevent seasoning your bag.

## Advent calendar 2024
