Stay calorie-free through the pre-Christmas period: Advent calendar with tool surprises

New edition of our classic Advent calendars / Combination of screwdriving tools for fun and good results / Tool set in textile folding bag / Kraftform bottle opener with glow-in-the-dark effect /

Wuppertal. Every year, the Wuppertal screwdriving tool manufacturer Wera, in close co-operation with Santa Claus, equips an advent calendar with calorie-free tool surprises. This popular classic among advent calendars makes true DIY enthusiasts' hearts beat faster and is a wonderful companion in the Advent season.

This year, the calendar again features a combination of screwdrivers that deliver fun and great results, including a VDE force-grip handle with eight insulated interchangeable blades and a Kraftform handle with 1/4" Rapidaptor bit holder and eight 89 mm long 1/4" bits. Also to discover behind the doors are four angle keys with hex-plus profile, which ensures that the rounding of hexagon socket screws is avoided.

The tool set is optimally stored in a textile folding bag. The bag has a Velcro zone for quick docking with the Wera 2go transport system. Due to the self-adhesive Velcro strip, the tool bag can also be easily attached to the workshop wall or trolley. A highlight of this year's Advent calendar is the Kraftform bottle opener, which glows in the dark, perfect for the winter sea-

son. The Wera Advent calendar is the calorie-free alternative for all Christmas and screwdriving fans and a real must for all Tool Rebels!
