

## 8767 C TORX® HF 3 Zyklop bit socket set with 1/2" drive, with holding function

9-piece set; in a surface-preserving, compact and extremely robust textile box; low volume and weight for simplified mobility

9 Zyklop bit sockets, 140 mm long, for TORX® screws, with 1/2" drive, with holding function. Take it easy tool finder: Colour coding and large stamp to enable the desired socket to be easily located.

## 8740 C HF 1 Zyklop bit socket set with 1/2" drive with holding function

9-piece set; in a surface-preserving, compact and extremely robust textile box; low volume and weight for simplified mobility

9 Zyklop bit sockets for hexagon socket screws, with 1/2" drive, with holding function. Take it easy tool finder: Colour coding and large stamp to enable the desired socket to be easily located.

## Tip

### Bit sockets with holding function for TORX® screws

The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that TORX® screws made according to Acument Intellectual Properties specifications are securely held on the tool!

### Bit sockets with retaining function for hexagon socket screws

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.

### Secure hold and easy removal

The all new smooth turning mechanism of the Zyklop HF Socket sets guarantees both secure and rattle-free storage, yet allows easy removal of the tool.
